

# Assembly Line Scrapbooking

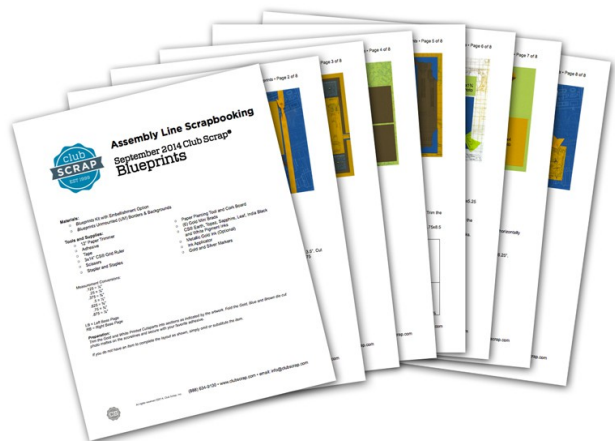

## Special Edition New Jersey Scrapbook Expo

Hi, and thanks for stopping by our booth at the expo to pick up your page kit! You'll find the instructions below to assemble all four theme choices we had available at the show.

Our method of efficient scrapbooking was developed in 2005, and we've been helping people accomplish their scrapbooking goals ever since.

Club Scrap members receive something very unique with each monthly shipment . . . a downloadable set of page assembly instructions custom designed to help them utilize every last scrap of paper included in the box. (Well, almost. There may be a few miniscule scraps here and there.) Our kit club pages also come fully embellished with fibers, photo mattes, brads, eyelets, cutaparts, etc.

Your basic page kit was created to help you take our efficient method for a spin. The four layouts below contain the same number of papers cut in the same way, and each spread is essentially identical yet unique in appearance. You can also recycle the same instructions and substitute coordinating papers from your existing stash. It's a great value!

You'll need a [12" paper trimmer](#) and adhesive. We prefer to use a guillotine-style trimmer because of the thickness of our papers and the efficiency/accuracy it provides. Follow the paper trimming instructions step by step, keeping in mind that sometimes a paper is trimmed twice. If directed to "trim at 9 and 5", cut the paper first at 9", slide the paper down to 5", and make a second cut. If you haven't measured something in a decade or two, we try to keep those cuts rounded to the nearest quarter inch. You will also need to pay attention to paper direction . . . we'll tell you if the paper is placed into the trimmer horizontally or vertically.

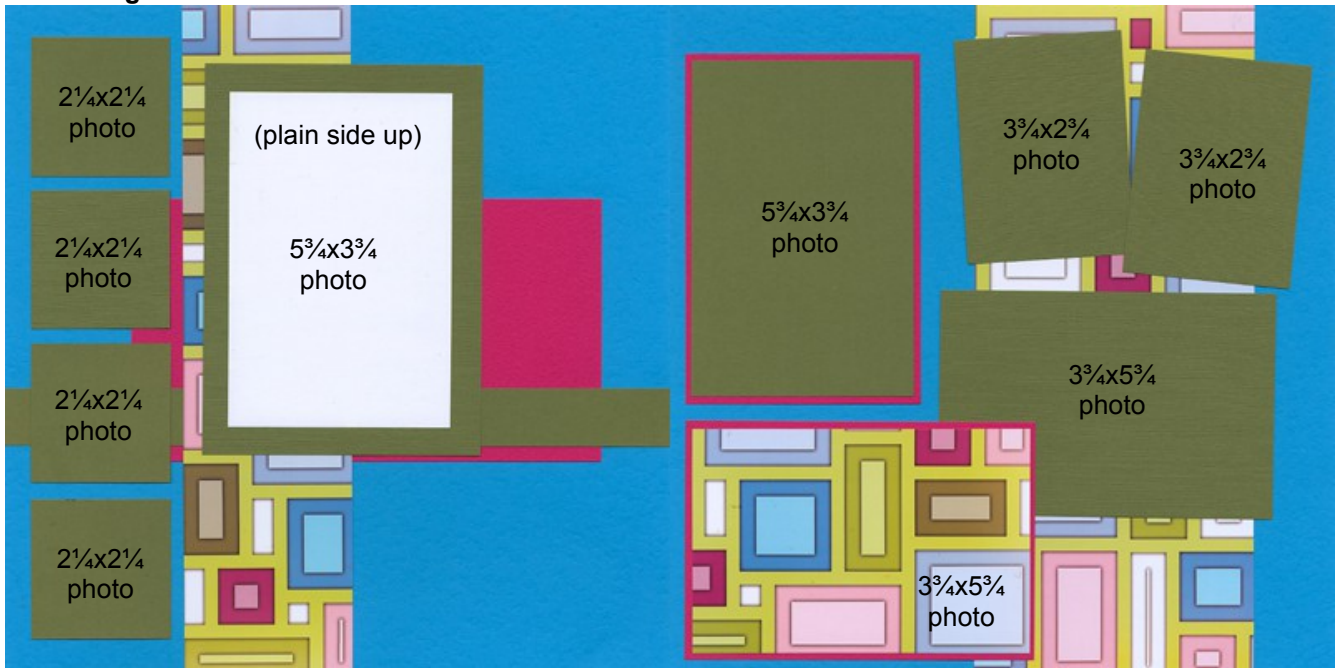

Once you've finished preparing the required papers, simply arrange and adhere the pieces on the layout as shown. Incorporate photos, coordinating fibers, stickers or other embellishments from your stash to complete the page. The measurement noted on each photo matte indicates the size of the photo required to nest perfectly.

Allow us to inspire you on a monthly basis by becoming a [Club Scrap member](#). Feel free to [contact us](#) for more information. Join the fun . . . get it done!

Happy trimming,  
Tricia Morris, President

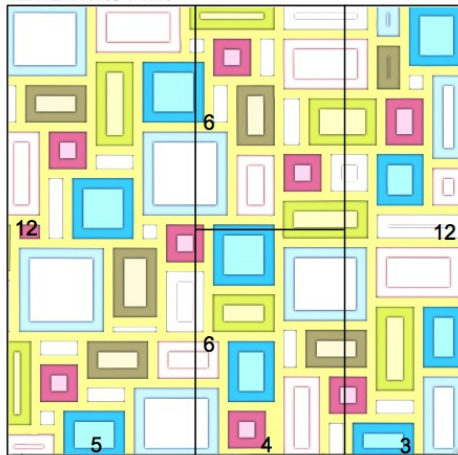

**Picnic Page Kit**

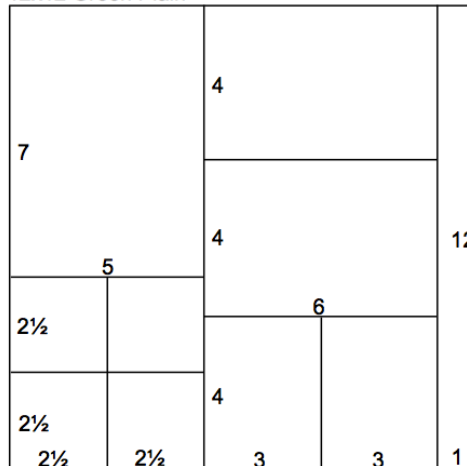

- (2) 12x12 Blue Plains (Left Base/Right Base)
- 12x12 White Print
- 12x12 Green Plain
- 8.5x11 Pink Plain
